

Off-Centre Matrix Plastic Counter - Film Base

Specially engineered for jobs that require two creases close together, Jazz Off-Centre is placed on the creasing rules with the narrow sides adjacent enabling the smallest possible distance between creasing centres to be calculated as follows:-

Distance Centre to Centre (C) = 2 x shoulder width (i.e. 1.5mm) plus creasing width required (B).

Jazz Off-Centre has 36 strips of 700mm in each box.
